***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-16, 18, and 20 are rejected under 35 U.S.C. 102(e) as being anticipated by Macready et al. (US 2002/0016759 A1).

Macready et al. discloses an electronic business transaction assisting server, system, recording medium, and method (par. 0002) for:

receiving a desired delivery time as the essential criteria for selecting at least one of a plurality of commodities (par. 0036);

selecting at least one of the plurality of commodities based on actual delivery times of the plurality of commodities stored in a memory and the received desired delivery time so that an actual delivery time of a selected at least one of the plurality of commodities must meet the received desired delivery time (par. 0038); and

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-16, 18, and 20 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***
